

RANGE GUIDE

CLEARVIEW
ACCESSORIES

Famous for our towing mirrors and unique range of high-quality 4wd and touring products, we pride ourselves on creating solutions found nowhere else!

Clearview Accessories began in 2006, as a family run business owned by entrepreneur Mike Cowan and his son-in-law Jay Praag. In the years that followed, Mike and Jay turned their small family business with three full-time employees, into one of Australia's most respected 4WD and Touring Brands.

Today, Clearview Accessories is known for more than just mirrors, with our drop-down fridge slides, including the innovative aluminium Power Slide, retractable side steps, pantry, tyre spiders and Rock Tamers also hugely popular with tourers.

If your side mirrors are ineffective with the trailer hitched up, Clearview extendable Towing Mirrors provide the extra visibility required to see you safely to your destination.

They are true replacement mirrors, designed to use the same holes, fittings, and wiring (when applicable) as your original mirrors for a plug & play installation. All Clearview Towing Mirrors are engineered specifically for each vehicle and feature most of the same functionality as the vehicle's factory mirrors.

Today, Clearview Accessories offers three different extendable Towing Mirror designs. Choose between;

Compact Towing Mirrors feature a large, single convex mirror in a sleek, compact design.

Next Gen Towing Mirrors feature a large, single flat mirror above a smaller convex mirror in a sleek design.

Classic Towing Mirrors are much larger than any standard mirror and feature a huge single mirror above a smaller convex mirror - for serious towing!

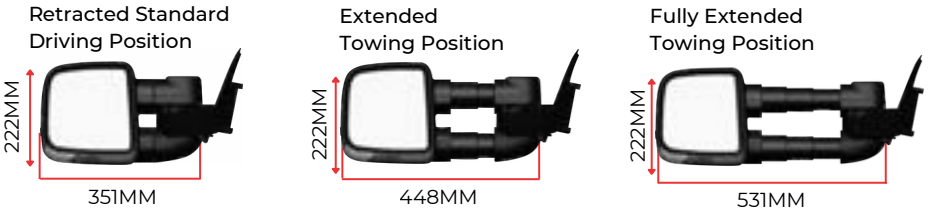

Clearview Next Gen & Compact Towing Mirrors extend out a full 180mm for towing but retract to close to the factory profile of the standard mirrors they replace!

When set to their normal driving position, the mirrors remain unobtrusive during your daily commute when you don't need extended mirrors, or when you need to fit into tight spaces.

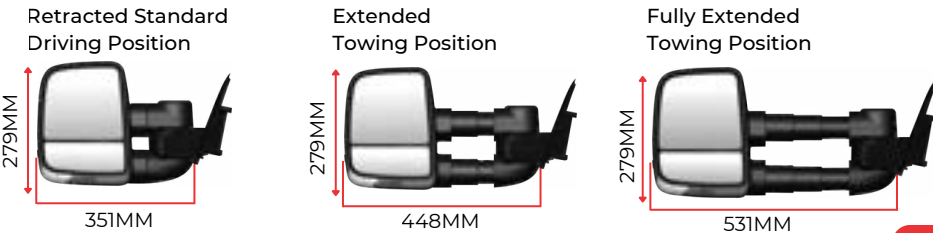

Features include:

- Telescopic 2-stage extension provides 3 towing positions to choose from, and won't retract when driving at high speeds or when passing large trucks.
- The double arm design of Clearview towing mirrors provides superior stability and adjustability. This innovative design minimises vibrations, even at high speeds or on rough terrains, ensuring that the driver has a clear and steady view at all times.
- 360-degree camera provision, auto-tilting function when reversing, memory adjustment, power-fold, and blind spot monitoring are all available features depending on the base vehicle that you're installing Clearview Mirrors onto.

Clearview Compact

Clearview Next Gen

Compact Towing Mirrors are just like a factory Mirror, with the additional advantage of the extra visibility that our towing mirror extension provides.

Compact Towing Mirrors **Features:**

- A large convex single mirror reduces the objects that it reflects, allowing the driver to have a much wider field view and diminishing blind spots.
- Designed to look like your factory mirrors, these are perfect for everyday use as well as towing, while keeping a discreet profile.
- Ideal for drivers who want subtle aesthetics resembling their factory mirrors.
- Clearview towing mirrors fold inwards or outwards if accidentally struck whilst 4WDing or parked.
- Available in Black, Chrome or Raw Finish.
- As we build our mirrors here in Australia, spare parts are readily available in Australia, allowing us to minimise turnaround time to replace the broken part, faster!

CVC-

The Next Gen's dual mirror design provides the best of both worlds; a large, flat top mirror helps with reversing into parking spaces or aligning a hitch with a trailer, and the smaller convex mirror provides a better understanding of what's happening around the vehicle.

Next Gen Towing Mirrors **Features:**

- Large top mirror 1:1 ratio. This large, flat mirror provides a narrower field of view, reflecting true distance for reversing. It provides an exact reflection of what's happening behind you.
- Smaller bottom mirror. This slightly curved mirror makes objects appear further than they are. The convex mirror reduces the objects that it reflects, allowing the driver to have a much wider field view and diminishing blind spots. This mirror provides a better understanding of what's happening around the vehicle.
- Clearview towing mirrors fold inwards or outwards if accidentally struck whilst 4WDing or parked.
- Available in Black, Chrome or Raw Finish.
- As we build our mirrors here in Australia, spare parts are readily available in Australia, allowing us to minimise turnaround time to replace the broken part, faster!

CVNG-

Affordable, Reliable, Timeless – Built for those who know quality never goes out of style.

Classic Towing Mirrors Features:

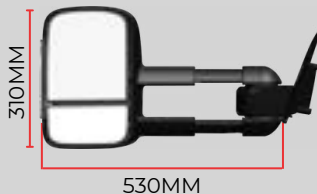

- Telescopic arms with 2 different driving positions, Normal Driving Position and Extended towing position.
- Sturdy steel arm construction won't retract when driving at high speeds or when passing large trucks.
- Very large top mirror 1:1 ratio. This large, flat mirror provides a narrower field of view, reflecting true distance for reversing. It provides an exact reflection of what's happening behind you.
- Smaller bottom mirror. This slightly curved mirror makes objects appear further than they are. The convex mirror reduces the objects that it reflects, allowing the driver to have a much wider field view and diminishing blind spots. This mirror provides a better understanding of what's happening around the vehicle.
- Clearview towing mirrors fold inwards or outwards if accidentally struck whilst 4WDing or parked.

Non-Extended Standard Driving Position

Fully Extended Towing Position

Clearview Power Board
in the lowered position.

Trouble getting in and out of your vehicle?

Revolutionise your travel experience with Clearview Power Boards.

These electric retractable side steps provide an easy and safe way to step in and out of your vehicle. Clearview Power Boards are triggered by the vehicle's door sensor. When the door opens, the Power Board is activated and automatically lowers up to 300mm (depending on model) to a convenient stepping height. When the door closes, the Power Board will automatically retract back to the body of the vehicle.

Clearview Power Board
in the retracted position.

The best of both worlds - Retracting side steps descend on opening and retract on closing, making it easier to get in and out of the car without sacrificing ground clearance.

Swing OUT, STEP UP.

Introducing the next evolution in vehicle access. Clearview Swing Boards redefine the electric side step with an innovative design that offers convenience, safety, and style.

Clearview Swing Board in the retracted position.

Getting into and out of your vehicle should be easy. That's why we created the Clearview Swing Boards. Unlike traditional side steps that only drop straight down, Clearview Swing Boards take it a step further - literally. With a smooth drop and an arched outward swing, they create a wider, unrestricted stepping platform. This unique motion ensures every entry and exit is not only safer and more stable but also effortlessly comfortable.

Discover the unique features that make Clearview Swing Boards the ultimate upgrade for your vehicle.

Clearview Swing Boards take a different approach to traditional electric side steps. Instead of merely dropping straight down, these boards utilise an innovative “swing” motion. When the door sensor triggers the mechanism, the board swings outward and lowers into position simultaneously.

This arced movement places the step further away from the vehicle body, creating a true “staircase” effect rather than a ladder-climb sensation. By positioning the stepping platform further out, the board meets your foot where it naturally falls, allowing for a fluid, forward-momentum entry into the cabin.

Power Boards vs Swing Boards Guide

Choosing the right electric side step depends on your specific needs. The **Clearview Power Board** is the perfect solution if you need significant height assistance, especially for getting into raised or high-clearance vehicles. It drops straight down (up to 300mm) to substantially reduce the step-up distance. In contrast, the **Clearview Swing Board** is designed for those who want a more comfortable and secure stepping experience. It swings outward and drops down (up to 80mm) to present a wider, more accessible stepping platform, making entry and exit feel safer and more ergonomic.

The premiere adjustable and removable mudflap system, providing the ultimate protection when towing!

Features include:

- Rock Tamers Mudflap patented system is easy to attach or remove from any standard 50mm draw-bar. (purchased separately)
- Mudflap height is adjustable to maintain consistent ground clearance when towing various loads.
- Overall width is adjustable and easily fine-tuned to fit most tow vehicles.
- Adjustable width. (169.5cm – 238cm)
- Full sized 9mm thick rubber mud flaps (61cm x 61cm) moulded with a layer of tear-resistant fabric.
- Mud flaps can be cut to fit your specific vehicle application.
- Back of mud flaps features anti-splash pattern.

Includes free 157cm wide Rock Tamers Rock Screen!

RT-RT108 to suit 2" (50mm) draw-bar
RT-RT110 to suit 2.5" (63.50mm) draw-bar

TYR-01

On road or off road, the Clearview Tyre Spider helps manage your tyre pressure in all conditions.

Designed to work independently OR attached to your vehicle's air-compressor, the Tyre Spider has four main functions:

- **Inflation** – Inflate up to 4 tyres simultaneously via an air-compressor.
- **Borrow Air** – Inflate a tyre without an air-compressor by borrowing air from up to 3 tyres.
- **Deflation** – Deflate up to 4 tyres simultaneously.
- **Equalisation** – Equalise tyre pressure across multiple tyres simultaneously.

The Tyre Spider can be used in almost any situation!

CLEARVIEW CUTLERY SET

Keep your cooking essentials **within easy reach!**

Perfect for your next off-road adventure!

A “must-have” when camping, the Clearview kitchen pantry and sink makes life so much easier for storage and space while on the road.

We believe that setting up camp should be quick and easy. The unique design of the Clearview® Pantry lets you transition from adventure to al fresco dining with ease. It's more than a camp kitchen; it's a space-creating accessory that speeds up meal prep and heightens your outdoor experience.

Features:

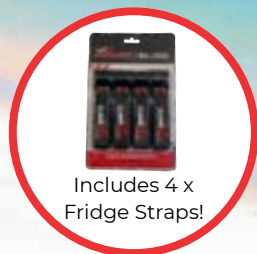

- 74L of storage.
- There's room for every part of your feast preparation with three pull-out worktops
- Weighs only 23Kg with its powder coated aluminium body and lid.
- Comes fully assembled and includes 9L collapsible silicone sink.

**Easy Slide and Cutlery Set not included with Pantry*

*** Pantry compatible with the ES-100 PLUS Easy Slide. If fitting the Pantry into the Clearview Expanda Slide®, this will require an additional fixing kit – EXP-KIT-BRACKET – Expanda Pantry Bracket.*

CLEARVIEW
POWER SLIDE®

The Revolution in **Fridge Accessibility**

Experience the Ultimate Convenience

Welcome to the future of on-the-go refrigeration access. The Clearview Power Slide® offers easy and effortless access to your cold food and drinks at the touch of a button.

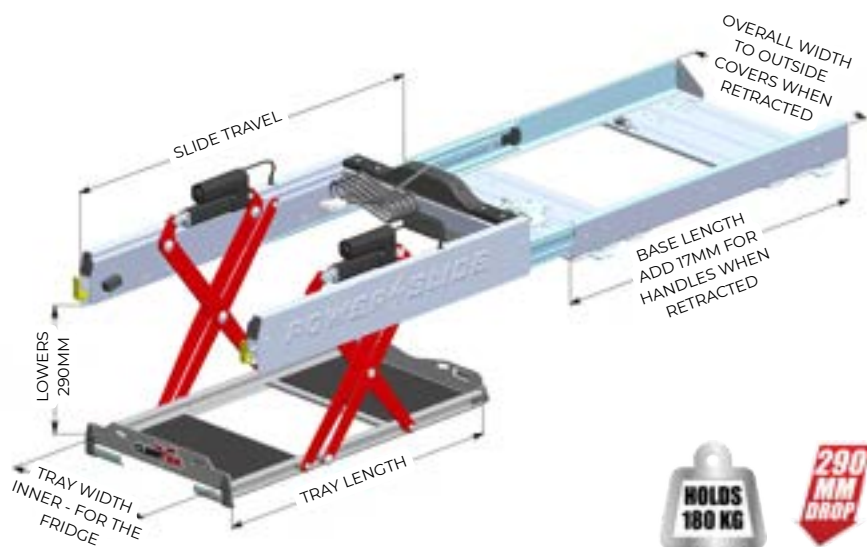

A large, fully stocked fridge can be extremely heavy, requiring a Power Slide that can effectively function under its weight, without adding unnecessary additional weight to the overall vehicle set-up.

With a load rating of 180kg, the lightweight, Aluminium Clearview Power Slide® is designed to smoothly lower and raise a fully loaded fridge. Its unique scissor lift design is supported on each side by synchronized, self-aligning actuators, ensuring that the fridge always remains perfectly level.

Upgrade your adventuring lifestyle with the Clearview Power Slide®.

It's not just about having your food and drinks readily available - it's about simplicity, comfort, and enjoying the great outdoors without limitations.

Never struggle with fridge access again, with the Clearview Power Slide®.

Power Slide Dimensions:

PS-S (SMALL)

TRAY INNER – FOR FRIDGE: 750 (L) X 390 (W)
OVERALL – WHEN RETRACTED: 851 (L) X 547 (W)
TRAVEL: 955MM | **WEIGHT:** 29KG

PS-M (MEDIUM)

TRAY INNER – FOR FRIDGE: 772 (L) X 460 (W)
OVERALL – WHEN RETRACTED: 875 (L) X 617 (W)
TRAVEL: 980MM | **WEIGHT:** 30.5KG

PS-L (LARGE)

TRAY INNER – FOR FRIDGE: 884 (L) X 530 (W)
OVERALL – WHEN RETRACTED: 1002 (L) X 687 (W)
TRAVEL: 1107MM | **WEIGHT:** 35KG

PS-XL (EXTRA LARGE)

TRAY INNER – FOR FRIDGE: 960 (L) X 560 (W)
OVERALL – WHEN RETRACTED: 1078 (L) X 717 (W)
TRAVEL: 1183MM | **WEIGHT:** 38KG

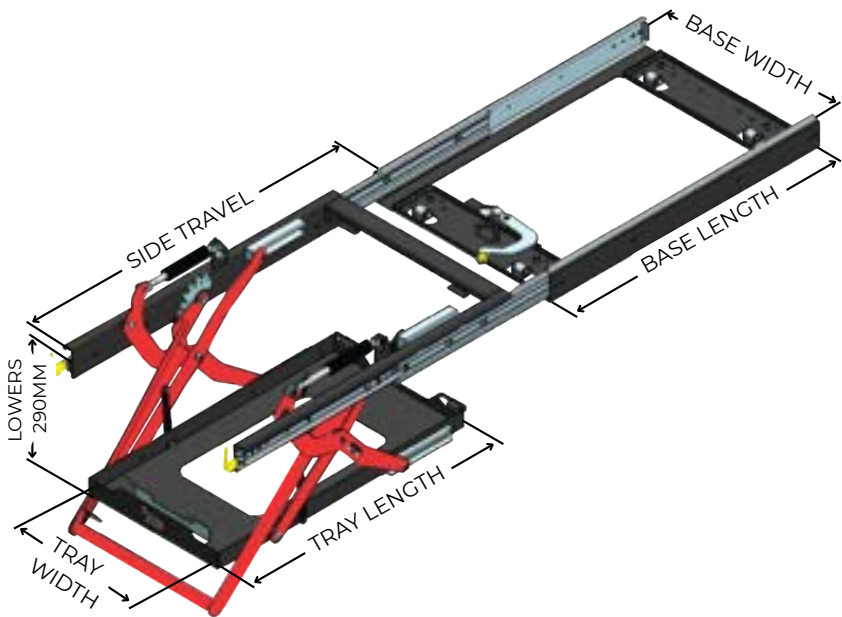

Easy access to cold food and drinks no matter where you're going.

For easy, safe access to your cold food and drinks when exploring the great outdoors – your back will thank you, and your belly will too. Adventure awaits, and with a Clearview Easy Slide® drop down fridge slide, you're ready to meet it head-on, with a cold drink in hand.

Simply unlock the travel lock mechanism, pull down on the yellow ergonomic slide quick release runner levers and pull the fridge towards you to full extension. A gas strut-assisted vertical scissor lift action and safety latch system then allows for safe and easy lowering of your fridge, providing convenient access to its contents.

Features include:

- Smoothly lowers the fridge up to 290mm, with the option of 4 different platform heights to choose from.
- Unobtrusive handle allows for uninterrupted access to your fridge.
- 180Kg load rating to support a fully loaded fridge or pantry.
- Quick release double runners and heavy duty Travel Lock that is guaranteed not to rattle!
- Safety locking mechanism prevents sudden upward/downward movements.
- It's as easy as Handle up – Fridge up and Handle down – Fridge down!

Easy Slide Dimensions:

TRAY DIMENSIONS: 738mm x 390mm

SLIDE TRAVEL: 933mm

ES-150PLUS

OVERALL BASE DIMENSIONS: 846mm x 620mm

TRAY DIMENSIONS: 738mm x 460mm

SLIDE TRAVEL: 933mm

ES-220PLUS

OVERALL BASE DIMENSIONS: 1005mm x 690mm

TRAY DIMENSIONS: 885mm x 530mm

SLIDE TRAVEL: 1085mm

The fridge slide that adjusts **to fit most portable fridges.**

Maximise storage and minimise movement – no matter the fridge you travel with. With 81 different tray dimensions possible, the Clearview Expanda Slide is designed to fit your travel fridge perfectly!

EXP-01 | EXP-02

The Expanda Slide's patented Aussie design is also great for hard-to-access items such as toolboxes, generators, and barbecues. Adjustable fitting dimensions mean that it's easy to stow in most locations.

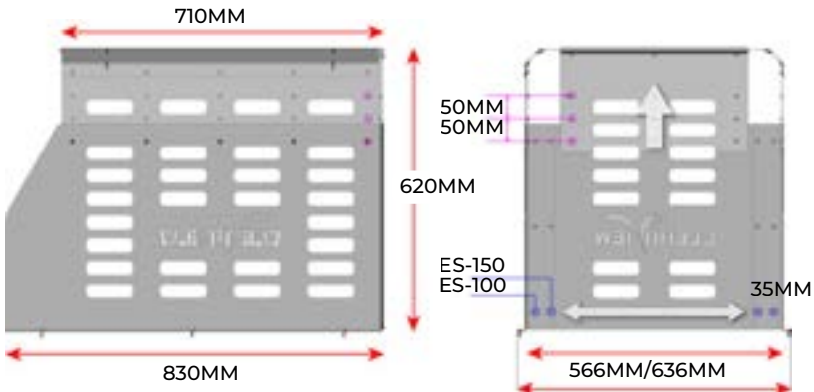

Maximum storage, **minimum weight**

Protect your fridge / freezer from overheating by allowing sufficient space around the fridge with a Fridge Cage! Designed to adapt to changing fridges and slides.

CAGE-01

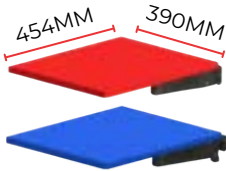

- Protect your fridge / freezer from scratches and dents.
- Stack your gear safely around your fridge / freezer without worrying that anything will fall in the hard to reach space behind it!
- Built tough with powder coated, high-grade 2.5mm laser cut Aluminium, weighing in at only 13kg.
- Adjustable height and width to suit your fridge and ES-100PLUS or ES-150PLUS Easy Slide.

CLEARVIEW CLIP-ON TRAY

The Clearview Clip on Tray is a lightweight, powder-coated Aluminium portable camping table designed to conveniently hang off your Easy Slide or Drop Slide. It's easy clip on/clip off design makes it a breeze to set up extra platform space to prepare a quick meal, snacks or a cold drink!

The perfect addition to your set up, the Clearview Clip on Tray is a quick and easy way to instantly create a workable area.

SMALL TRAY

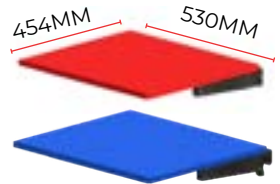

TRA-01 (Suits Easy Slide ES-100 / ES-150)

TRA-03 (Suits ALL MSA Drop Slide Models)

LARGE TRAY

TRA-02 (Suits Easy Slide ES-220 Plus Model)

TRA-04 (Suits MSA Drop Slide Models DS40SIDE, DS50SIDE, DS60, DS60SIDE, DS95)

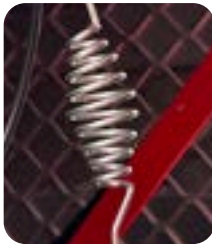

**Cable
Saver**
CLEARVIEW

The Cable Saver protects your portable fridge cable from getting caught or jammed in the bearing runner of your fridge slides, by keeping them up and out of the way. The Cable Saver attaches securely to your fridge slide with its strong magnetised base.

CSV-01

*Strong magnetised
base for secure
attachment.*
